in Ritesh Kawale

Profile

A **dynamic and accomplished Full Stack Software Developer** with over 2 years of hands-on experience in designing, developing, and maintaining dynamic web applications. Expertise in both front-end and back-end technologies, committed to crafting responsive and user-centric websites. Proven track record of delivering high-quality digital solutions in collaboration with cross-functional teams. Passionate about continuous learning and leveraging cutting-edge technologies to solve complex challenges and enhance user experiences.

Education

2018 – 2021   **Bachelor's in Computer Science and Engineering**
Jain College of Engineering

Skills

Front-End: HTML, CSS, JavaScript, React, jQuery, WordPress

Back-End: Node.js, Express.js, Core PHP

Databases: MySQL, MongoDB

Framework: Bootstrap, Redux, Tailwind CSS

UI/UX Design: Adobe Xd, Figma

Server Management: GoDaddy, Digital Ocean, Cloudways, AWS

Professional Experience

2024/09 – present   **Full Stack Developer**
Doxofin by Patson Legal Pvt. Ltd.

- Designed and developed a comprehensive **Compliance Management System (CMS)** to streamline compliance workflows for professionals such as Chartered Accountants, Company Secretaries, GST practitioners, and other compliance specialists.
- Engineered the platform using React for the frontend and **Node.js**, Express, **Sequelize**, and **MySQL** for the backend, ensuring a robust and scalable architecture.
- Performed end-to-end development tasks, including form validations, API development, and database management, to deliver a seamless and efficient user experience.
- Integrated tools and services for managing **Bulk GST filing**, **TDS compliance**, **E-waybills**, **Payroll**, **E-invoicing**, **CA-CRM**, **CS-CRM** and **TDS Compliance.**
- Implemented advanced features like **role-based authentication**, access control, partner collaboration, and task progress tracking to enhance operational efficiency.
- Incorporated identity verification and due diligence services via **AuthBridge APIs**, ensuring security and compliance with regulatory requirements.
- Designed and executed features for **task management**, **document handling**, **chat functionality**, and **notification systems**, providing a user-friendly interface and improving collaboration among stakeholders.
- Collaborated with cross-functional teams to deliver a **scalable**, secure, and highly customizable solution tailored to the specific needs of compliance professionals.

2024/03 – 2024/08

Associate Software Engineer
Aeriesys Tech

- Developed and maintained the **Node.js backend** for an **Asset Taxonomy Management platform**, enabling efficient management and categorization of assets within organizations.
- Designed and optimized **MongoDB schemas** to handle **complex data structures** and queries, ensuring **scalability**, **data integrity**, and seamless retrieval.
- Implemented robust **server-side logic** for asset configuration, template creation, and model definitions, enhancing **system performance** and usability.
- Enabled advanced **search functionalities**, **data filtering**, and **downloadable data capabilities**, providing a seamless user experience for asset management.
- Collaborated with cross-functional teams to design scalable solutions, optimize performance, and ensure data consistency throughout the project lifecycle.
- Contributed to the development of a **bespoke SaaS watch management platform** tailored for **factory workers** and clients.
- Designed and implemented a **dynamic**, **responsive front-end** using **React** to provide a smooth user experience.
- Developed and maintained **RESTful APIs** in **Node.js**, leveraging **Sequelize ORM** and **MySQL** for efficient **database management** and seamless **data integration**.
- Integrated various **APIs** to deliver **real-time data** and insights, ensuring robust monitoring and management capabilities for **factory operations**.
- Worked closely with stakeholders to create scalable, customizable solutions tailored to specific client requirements, ensuring high performance and reliability.

2022/08 – 2023/10

Full Stack Developer
Vidzpros Services

- Designed and developed dynamic web applications using **ReactJS**, creating **engaging** and **responsive user interfaces** for a variety of clients.
- Leveraged **WordPress** to build and maintain **content-driven websites**, customizing themes and plugins to meet specific client requirements.
- Developed a **comprehensive HR Management System** application using the **MERN Stack**, designing RESTful APIs and implementing **CRUD operations** with **MongoDB** for core functionalities.
- Proficiently designed and built **educational websites** and a dedicated WordPress site for a **Photo Editing & Retouching service company**, utilizing **Elementor** and third-party integrations to enhance functionality and user experience.
- Performed **website maintenance tasks**, including adding new features, mitigating backlink attacks, and ensuring security and functionality across all projects.
- Integrated **third-party APIs** for advanced functionalities, such as **payment gateway** and social media sharing, leading to improved user experiences.
- Collaborated with **cross-functional teams**, including designers and project managers, to deliver **high-quality websites** on time and within budget.
- Managed **website hosting** on platforms such as **GoDaddy (cPanel)**, **DigitalOcean**, and **Cloudways**, overseeing **DNS propagations** and conducting **website migrations** for various projects.
- Actively engaged in identifying and implementing new features to enhance website functionality, ensuring seamless integration into existing systems and optimizing user satisfaction.
